Industries

Technology

Ryan Prescott is counsel in our Technology Law Group in Toronto. He has a general corporate and commercial practice with a focus on technology industries. He advises clients on intellectual property, privacy, and technology law issues, and acts for clients on complex and strategic commercial licensing, procurement and outsourcing transactions.

REPRESENTATIVE MATTERS

Ryan has recently represented:

- a statutory corporation in the procurement of key infrastructure computing services;
- a major Canadian health solutions provider on the acquisition of cloud computing services;
- a large software provider on its inbound licensing of strategic product technology;
- a pharmacies applications software provider on numerous commercial transactions as well as other software and data issues;
- a public sector consortium of regulators in the procurement of computing services in respect of their core national systems;
- a corporation jointly owned by several provincial commissions in connection with outsourced business process services;
- a statutory corporation in its procurement of business process services and IT systems to manage health services delivery and entitlements;
- a financial institution in their procurement of a cloud-based storage solution;
- a statutory corporation that coordinates and funds health services in the development of its agreements with health service clinics;
- a major Canadian online service company in their acquisition of a foreign technology company;
- a financial institution in their procurement of a cloud-based productivity software solution;
- a service provider to provincial governments in their expansion within Canada;
- a financial institution in the outsourcing of their operating portfolio and client relationship management system;
- a private Canadian technology company that was acquired by a multi-national public technology company;
