**Having been involved in a number of large, sophisticated transactions, Hadrien has developed the ability to simplify complex challenges and bring about practical solutions that allow deals to reach fruition.**

Hadrien is a partner in our Montreal office. His practice focuses on mergers and acquisitions, securities, law, corporate finance and corporate governance.

Hadrien has participated in numerous going-private transactions of publicly listed issuers, purchase and sale transactions of private companies, sales and cross-border acquisitions, divestitures or reorganizations. In the course of these transactions, he has acted for a diversified range of clients, including selling companies as well as strategic and financial buyers. Hadrien has also acted as counsel to issuers and underwriters in various public offerings (including initial public offerings) and private placements of publicly listed issuers.

A key part of Hadrien's approach to invest the necessary time up front to acquire a thorough understanding of the client's overall business, what the value drivers are behind the business, and what the goals and objectives are for the business going forward. This background knowledge is then employed by Hadrien to guide the transactional process.

Hadrien is highly regarded for his strong, technical grasp of the law, but what clients really appreciate is his ability to develop a practical solution to whatever challenge or issue they have, which in turn allows them to achieve their business objectives and goals.

Hadrien graduated from McGill University's Faculty of Law with BCL and LLB degrees in 2005 and was called to Québec Bar in 2007.
