A strategic lawyer and business advisor with vast international experience

Shawn Doyle is the Principal of our Latin America Practice, and a senior member of our Global Metals & Mining Group. He is a seasoned international transactional lawyer and business leader with particularly deep knowledge of all aspects of the global mining industry. He also has extensive background and expertise in Latin America, across industry areas, including on technology, manufacturing, construction and infrastructure matters in Latin America, among others. Clients trust Shawn's strong negotiating skills and holistic approach to guiding them through corporate and financing transactions, joint-venture structuring, commercial transactions and other corporate law matters.

Clients appreciate that Shawn truly understands business. This is partly a consequence of his having held not only legal, but also executive management positions - particularly in the mining industry. Furthermore, having lived and worked in each of the United States, South America, Europe and Asia, Shawn is fully immersed in the global business environment, and he approaches commercial and legal questions from a distinctly international perspective.

Shawn is based in Santiago, Chile and spends significant time traveling in the Latin American region and in Canada. He is fluent in Spanish and Italian and has a basic knowledge of several other languages.

Shawn obtained his J.D. from Harvard Law School in 2005; he is a member of the Bar in New York (2006) and in British Columbia (2012). He obtained his Bachelor of Commerce from the University of Victoria in 2000. He also studied finance as an exchange student at Thammasat University in Thailand in 1999 and he was an industrial engineering student at the Universidad Católica del Norte in Chile in 1996.

RECENT EXPERIENCE:

- Global vehicle manufacturer, Stellantis in its second strategic investment in McEwen Copper, bringing its stake up from 14.2% to 19.4%.

On Saturday July 1st, the Principal of our Latin American Practice, Shawn Doyle was interviewed on Spanish-language CNN about public policies around mining in Canada and Chile. The interview focused on measures that governments can take to stimulate mining exploration and projects, especially for critical minerals. Shawn also commented on how recent policy changes in Chile have been received by our firm's mining clients.

The full interview, in Spanish, follows:

Impact of the Chilean elections will have on the mining industry

November 21, 2021

Vancouver, British Columbia

CNBC interviews Shawn Doyle, Principal of our Latin America Practice.

The global metal and mining industry is at the heart of many discussions these days with an increasing number of technologies depending on copper, lithium and other minerals. Chile is at the center of the global copper and lithium industries, making Chilean politics important to these industries.
