

## In-House Legal Function Solutions

Your needs are evolving. So are we.

### Business complexity is greater than ever before:

- Legal budgets are tightening
- The Legal function is under ever-increasing pressure to demonstrate its value
- There has never been a greater opportunity to be the trusted advisors to the business

MT>Align, a division of McCarthy Tétrault, is a community of high-calibre independent contract lawyers with top tier law firm and in-house experience.

### MT>Align can help you:

- **Focus your in-house team on strategic, high value work while outsourcing non-strategic, non-core work, such as:**

Regulatory compliance reviews

Non-disclosure agreements

Financing and leasing agreements

Sourcing and procurement contracts

Advertising and marketing reviews

Sales and distribution contract preparation and review

Corporate re-organizations, review and updating minute books and compliance with continuous disclosure obligations

Summarizing contracts

- **Advance process improvement initiatives, leaving your team free to respond to urgent matters, focus on issues important to your business and stay ahead of the work, such as:**

- Develop playbooks, templates and tools to streamline assembling, drafting, negotiating and revising low to mid complexity contracts
- Review, update and/or create corporate policies and procedures
- Develop, update and/or monitor risk management and compliance programs
- Create and maintain library and database

We work with you to scope the work, offering alternative fee arrangements to suit your budget, provide cost certainty and align our interests. The cost savings achieved by driving efficiency and the value generated by focusing your team on high-value business priorities provides a compelling business case.

## You can engage MT>Align contract lawyers:

- On a part-time or temporary basis;
- On a trial basis to decide if you would like to hire a permanent resource. If the MT>Align contractors are a fit for your needs you are welcome to hire them without any placement fee; or
- On a team basis. For example, combine a more senior MT>Align contractor to provide oversight with a more junior lower cost MT>Align contractor to do the lower level work.

## Why MT>Align?

- **We have the platform:** seamlessly providing optimal candidates that receive MT>Align training and have access to MT>Align templates and tools.
- **We have the talent:** leveraging McCarthy Tétrault's network and alumni community we gather the best in class. We select, interview, and vet each contract lawyer thoroughly.
- **We are committed to your success:** we continuously assess the capability and performance of our MT>Align contract lawyers to make sure your needs are met and are completely satisfied.
